Work package 5

Good practices in the field of health promotion and chronic disease prevention across the life cycle

- **Lead: BZgA (Federal Centre for Health Education)**
- **Co-lead: EuroHealthNet**
- **20 associated partners**

Description

WP 5

Identification, review and validation of interventions on health promotion and the prevention of main chronic diseases with a broad approach on social determinants of health, taking into account lifestyles and the determinants that influence them.

4 Objectives

WP 5

- (1) Identify and bring together a set of highly promising, cost-effective and evaluated health promotion and chronic disease prevention practices**
 - 3 per country participating in this WP
- (2) Promote the exchange, scaling up, and transfer of effective approaches to different regions and countries**

4 Objectives

WP 5

- (3) Improve transparency of health promotion and chronic disease prevention approaches (among elderly) in EU member states**
- (4) Address the expanding challenges of chronic conditions (especially among the ageing population) through the prevention and delay of the onset of chronic diseases across the life cycle**

Task 1: Review of existing work, situation and needs

Task-leader: EHNet in cooperation with BZgA

08/2014
