

# Workpackage 6

Development of common guidance and methodologies for care pathways for multi-morbid-patients

**Graziano Onder**  
AIFA  
**Rokas Navickas**  
VULSK

# Tasks

**T1. Identify targets** of potential interventions for management of multi-morbid patients (M 1-12)

**T2. Review existing care (pathway) approaches** for multi-morbid patients (M 1-12)

**T3. Assess and select good practices** on management of multi-morbid patients (M 13-24)

**T4. Define multi-morbidity case management training programmes** (M 25-36)

# Tasks

**T1. Identify targets** of potential interventions for management of multi-morbid patients (M 1-12)

**T2. Review existing care (pathway) approaches** for multi-morbid patients (M 1-12)

**T3. Assess and select good practices** on management of multi-morbid patients (M 13-24)

**T4. Define multi-morbidity case management training programmes** (M 25-36)

# Task 1 (leader AIFA) - Identify targets

- *Analysis of existing databases*
  - Databases identified (Task 1.1)
  - Strategies for data analysis defined (Task 1.2)
  - Research questions defined (Task 1.2)
  - Analyses ongoing (Tasks 1.3)
  - Papers will be produced (monographic issue EJIM) (Task 1.4)

# Databases

Partner	DATABASE
AIFA (Italy)	CLICON
VULSK (Lithuania)	DB
STAMPAR (Croatia)	CPAC (Chronic Patient Adherence Croatia) project
TUD (Germany)	SDMP -database of the saxonian integrated care model, NBLIII-database in Saxony
NCPHA (Bulgaria)	IHRI -Integrated Health Resources Information
GVA (Spain)	SIA , ORION clinic , NOMHAD
ISCIII (Spain)	CadeViMa, QoL in dementia
BIOEF (Spain)	PREST
IACS –Epichron (Spain)	IHDR_Aragon
Nivel (Netherlands)	National Panel of people with Chronic illness or Disability..
THL (Finland)	T2DM patients in North Karelia, FINRISK cohorts

# Task 1 (leader AIFA) - Identify targets

- *Analysis of existing databases*
  - Databases identified (Task 1.1)
  - Strategies for data analysis defined (Task 1.2)
  - **Research questions defined** (Task 1.2)
  - **Analyses ongoing** (Tasks 1.3)
  - **Papers will be produced (monographic issue EJIM)** (Task 1.4)
- *Literature review*
  - Search strategy defined (Task 1.5)
  - **Review process ongoing and a paper will be produced** (Tasks 1.6 and 1.7)

# Task 2 (leader NIVEL) - Review existing care approaches

- *Literature review*
  - Review process ongoing (Task 2.1)
- *ICARE4EU*
  - **Data collection and analyses ongoing** (Tasks 2.2 and 2.3)
  - **Collection of data from other project ongoing**

**Deliverable 1.** Report from data analysis and evidence from literature to identify high care demanding population and available approaches for multimorbidity

# Task 3 (leader VULSK) - Assess and select good practices

- *Agreement reached with WP4*
  - **Delphi panel in first half 2015 to define criteria**
  - **Delphi panel in second half 2015 to agree on GCP**

WP6 meeting will be organized  
October 24th and 25th, 2014 in Rome

# The Joint Action on Chronic Diseases and promoting healthy ageing across the life cycle (CHRODIS-JA)\*

**\* THIS PRESENTATION ARISES FROM THE JOINT ACTION ON CHRONIC DISEASES AND PROMOTING HEALTHY AGEING ACROSS THE LIFE CYCLE (CHRODIS-JA) WHICH HAS RECEIVED FUNDING FROM THE EUROPEAN UNION, IN THE FRAMEWORK OF THE HEALTH PROGRAMME (2008-2013)**
