

Is it good to have a National Diabetes Plan

WP7 Meeting, Vilnius, Nov 6th
2014

Jelka Zaletel
NIJZ

Co-funded by
the Health Programme
of the European Union

This presentation arises from the Joint Action addressing chronic diseases and healthy ageing across the life cycle (JA-CHRODIS) which has received funding from the European Union, under the framework of the Health Programme (2008-2013).

..what is a National Diabetes Plan?

- any formal strategy for improving diabetes policy, services and outcomes that encompass structured and integrated or linked activities which are planned and co-ordinated nationally and conducted at the national, state or district, and local level; and
- systematic and co-ordinated approach to improving the organisation, accessibility, and quality of diabetes prevention and care which is usually manifested as a comprehensive policy, advocacy and action plan.

Ref: IDF Guide

Diabetes is a complex state and one can not solve all of it

Only keeping the best of what we are..

...gives the best flavours

Having National Diabetes Plan...

..does not solve it all

...as guests in Vilnius...
