This is the summary page where you outline the contents of the document and the annexes.

Please use page breaks instead of spaces if you want to start writing on the next page. You can find “Page Break” on the “Insert” tab above to the left hand side. The next line here is a page break (If you delete it the break will go away).

This is a “Heading 1”

To use any sort of heading select the type of heading you want from the “Styles” menu in the “Home” tab of the tool bar above.

This is a “Heading 2”

This is normal text. Paragraphs are not indented and you do not need to add a space between paragraphs. Simply hit enter.

This is what the distance between paragraphs looks like.

This is a “Heading 3”

- This is a bulleted list
- This would be the second item on the list.

This is normal text again.

1. This is a numbered list.
2. This is item two in the numbered list.

You may have to change the paragraph after the numbered list to normal again in the “Styles” panel. You may also have to left click on the lists to restart list numbering.
