

EU work to prevent and address chronic diseases

Commissioner Vytenis Andriukaitis

Brussels

28 Feb 2017

European
Commission

First and foremost: promoting good health across the life cycle:

healthy children and healthy adults for healthy ageing

Second, health promotion measures must reach out to everybody – the poorest, the less educated.

European
Commission

Employment rate (age 50-59) without and with (1 or 2) chronic diseases

14 European countries, 2013

Note: N = 17 666 in the 14 countries studied. See the Statlink for further details on the methodology.

Source: OECD estimates based on SHARE data (wave 5).

European
Commission
