

CHRODIS PLUS
Work Package 5 Health Promotion and Disease Prevention
Workshop Intra- and intersectoral collaboration
Monday 13 May 2019 10.00-13.00 h
Hotel Benczur, Budapest, Hungary

Agenda

Objectives

To discuss the list of success factors that contributed to delivering best practices in health promotion and disease prevention through intra/ intersectoral collaborations.

To discuss the enabling and hindering factors of the list of success factors we have identified (more detailed information about the underlying processes of the different factors).

To foster collaboration among participants of WP5, 6, 7 and 8 work packages to gain more insight into intra/ intersectoral collaborations and how they can strengthen health promotion and disease prevention activities in the healthcare and other sectors.

Participants

Participants from WP5, WP6, W7 and WP8 familiar with intersectoral collaboration and partners who are implementing (intersectoral) practices.

Programme

9.15-10.00 **Coffee and registration**

10:00-11.10 **Welcome and introduction of the programme**

Dr Johan Melse, senior advisor National Institute of Public Health and the Environment and facilitator of the workshop, the Netherlands

Meet the partners

Dr Johan Melse and participants of the workshop

Short introduction of all partners and sharing success experiences with intra/intersectoral collaboration

Presentation of the practices and their success factors of intra / intersectoral collaboration

Dr Marieke Hendriksen, senior researcher National Institute of Public Health and the Environment, the Netherlands.

Prevention of Childhood Obesity in Hungary: lessons learned and experiences.

Evidence informed policy making and experiences with the intersectoral working group.

Dr Viktória Anna Kovacs, senior nutrition consultant, National Institute of Pharmacy and Nutrition., Hungary.

11.10-11.30 *Coffee break*

11.30-13.00 Pitches of 4 practices

- Petra van Wezel manager *Healthy Overvecht: Integrated medical and social basic care*, the Netherlands
- Aukse Domeikiene, associated professor Lithuanian University of Health Sciences Hospital Kauno Klinikos, *Health promotion program for people with risk of cardiovascular disease and diabetes*, Lithuania
- Sirpa Hyronmaki, project worker the Northern Ostrobothnia Hospital District. *Vesote project: National program to reinforce and develop effective and target-based lifestyle counselling in social and health care*. Finland
- Denis Oprešnik, cultural anthropologist, National Institute of Public Health and General Hospital Novo mesto, Slovenia. *Integrated care for people with chronic wound*.

Defining the success factors: discussion in subgroups

- Participants choose one of the practices (Hungary, the Netherlands, Finland or Lithuania)
- Experts give a short description of the practice and present the success factors and how they achieved the success factor
- Discussion with participants what works in this case and why? What can we learn from this case?

How can these success factors help us in CHRODIS+: subgroups

Participants choose one of the topics and discuss the relevance of the success factors and formulate recommendations for each topic:

- Implementation
- Local programme/ health care
- National program/ policy

Summary of the findings and presentation of the next steps

Dr. Djoeke van Dale, National Institute of Public Health and the Environment, the Netherlands, task leader 5.3 and Dr Erzsébet Podmaniczky /Edit Marosi, National Institute of Oncology Hungary, co-leaders.
