The sustainability and integration into national policies of CHRODIS proposals beyond 2020

1. WP4 is dedicated **to support EU MSs in implementing new or innovative policies and practices** that further strengthen empowerment, health promotion and prevention, and the management of chronic diseases and multi-morbidity.
2. WP4 partners will produce a report including an analysis regarding the sustainability and integration into national policies of CHRODIS proposals beyond 2020, as well as a **Consensus Statement concerning the EU added value of cross-country collaboration** in the field of chronic diseases which will be submitted to the endorsement of the Governing Board (Deliverable 4.2).

What has been done:

- A **framework** to review the conceptualization of “Sustainability”, “Integration in National Policies”, and “European Added Value”.
- An **analysis** and synthesis of the **most relevant international initiatives** and consensus about chronic diseases.
- A plan to foster the EU Ministries of Health involvement.

EU Ministries of Health involvement

Then, SGGP members will be involved in a face-to-face meeting (next November)

- to discuss the survey results;
- To draft the Consensus Statement.

1. **Governing Board (GB)** members and has been involved in different activities:
 - the Governing Board members, during the first meeting, held in Ulm (Germany) on June 2018, provided their expectations on the ways of collaboration with Joint Action partners;
 - Now, we would like to involve you in drafting a **SURVEY** which will target the Steering Group on Health Promotion, Disease Prevention and Management of NCDs (SGPP) members.
2. This **survey** includes questions on:
 - the **priority areas** in the policy agenda from MS,
 - the **solutions** that are more relevant for giving added value to the EU collaboration among MS which enable the integration and sustainability of NCD good practices into the national/regional policies/practices.

The survey

The survey aims to gather input from SGPP members and will be focused on:

1. Priority action areas - **to prioritize the policy key areas** based on EU Council conclusions on the field of NCD.
2. Sustainability, integration on national policies and EU added value - **to rank the effectiveness of the solutions** highlighted in the framework.
3. Operational advices and suggestions - **to provide advices and suggestions** based on Country experience in implementing those solutions.

We expect to receive **one filled in questionnaire for each Member State**.
The gathered information will represent the point of view of the Country
and not the opinion of the filler

Time frame

Drafting the questionnaire

- 5th June: feedback from GB members;
- 6-14 June: further feedbacks from GB members;
- 7th June: survey presentation to SGPP;
- 15-26 June: setting the web version of the survey.

Participating to the survey

- 27th June: opening the survey;
- 6th September: closing the survey.

FOLLOW UP (Sep-Oct 2019)

After the closing of the survey, we will analyze the answers and, on the base of the results, we will draft a very first version of the consensus statement to present to the SGPP meeting in November. In this stage, your collaboration and active participation is welcome.

Questions for the discussion

1. Does the e-survey include **all relevant area/items**?
Are there any other topics to consider?
2. Are there any other **people to involve** in the e-survey and in the drafting of the Consensus Statement (except SGPP members / GB members and Joint Action partners already involved)?
3. How do you propose **to facilitate the process** of completing the questionnaire in your country?
4. Do you wish **to contribute to the drafting** of the Consensus Statement (based on the Survey results)?
How?
