Opening and introduction to the 3rd Stakeholders Forum

Welcome by Coordinator and brief overview of JA-CHRODIS: objectives, goals and achievements

Lessons to be shared: identification and collection of good practices. Open forum presentations

Rationale: Provide participants with a flavour of different initiatives at national and international level on the identification, collection & evaluation of good practices, and their use in guidelines or policy making.

Expected output: Lessons learned from experiences from different initiatives on chronic diseases and related good practices.

JA-CHRODIS next steps

Rationale: To discuss how to operationalize the exchange of good practices as a key element of JA-CHRODIS and how to achieve a strategic impact.

- *Promote of PEK use.* Exchanging good practices as the starting point to:
 - Compare existing practices with evidence based recommendations
 - Learn from each other
 - Extend good practices and improve chronic conditions plans, programmes and interventions
 - Issue recommendations on practices and training when appropriate
- *Transferability of practices:* how to plan the transfer to improve the probabilities of success
- *Collaboration with other initiatives:* how to make JA-CHRODIS the reference initiative on chronic conditions at European level

Expected output: Guiding ideas on the organization of a flow of good practices with an impact at European level and proposals for JA-CHRODIS next steps.
