# Non-implementers role

## Perfect scenario:

Theoretical  
implementation

Follow the steps of  
Pre-implementation

Possible  
benefits and  
added value

## First steps:

Identified  
partners

Reviewed the  
"Guidelines  
Implementation  
Strategy"

Received their  
feedback  
regarding  
feasibility

Proposed the  
scenario and  
timeline of the  
activities

# Non-implementer involvement

Non implementing sites involved in side activities:

NIGRiR (PL), COMPLEK (DK), University medical centre Ljubljana (SL) → Considering a theoretical implementation

NIJZ (SL) → comparative study of the MM care model and the current Slovenian Resolution on National Health Plan 2016-2025 + policy dialogue

# Suggested activities:

## 1. First meeting :

- a. Complete “Appendix 2” Local implementation working group definition and stakeholders identification, in summary table
- b. Complete „Appendix 3“ Scope definition

## 2. Second meeting:

- a. Complete „Appendix 4“ SWOT analysis, in summary table (before this step I will also share some additional material which will help to do the SWOT exercise)
- b. Complete „Appendix 5“ Identification of improvement areas, in summary table

## 3. Third meeting

- a. Appendix 6 Pilot action plan in Improvement area (s), in summary table

As a final step before the implementation and when all appendixes will be finalized you will be able to fill in the Appendix 1 and all the section of the report.

# Thank you for your attention

---

## The Joint Action on Implementing good practices for chronic diseases (CHRODIS PLUS)

This presentation arises from the Joint Action CHRODIS PLUS. This Joint Action is addressing chronic diseases through cross-national initiatives identified in JA-CHRODIS to reduce the burden of chronic diseases while assuring health system sustainability and responsiveness, under the framework of the Third Health Programme (2014-2020). Sole responsibility lies with the author and the Consumers, Health, Agriculture and Food Executive Agency is not responsible for any use that may be made of in the information contained therein.
